

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (currently amended): A synthetic fiber tire fabric woven of warps, comprising synthetic fibers subjected to first twisting and final twisting; and wefts comprising two feeding fluid jet textured yarns of core and sheath having a difference of the over-feeding rate of core and sheath of 1 - 50% ~~synthetic fibers~~ and used for reinforcing rubber, characterized in that said wefts have a breaking elongation of 70 to ~~180~~ 80 % and a strength of not more than 2.0 N at the primary yield point, and have loops and sagging.

2. (original): The synthetic fiber tire fabric for reinforcing the rubber, according to Claim 1, wherein the synthetic fibers are polyamide fibers, polyester fibers or polyvinyl alcohol fibers.

3. (canceled).

4. (previously presented): A pneumatic tire using a synthetic fiber tire fabric as a reinforcing material, characterized in that said synthetic fiber tire fabric is the synthetic fiber tire fabric for reinforcing the rubber, according to Claim 1.

5. (previously presented): A pneumatic tire using a synthetic fiber tire fabric as a reinforcing material, characterized in that said synthetic fiber tire fabric is the synthetic fiber tire fabric for reinforcing the rubber, according to Claim 2.

6. (currently amended): A pneumatic tire using a synthetic fiber tire fabric as a reinforcing material, characterized in that said synthetic fiber tire fabric is the synthetic fiber tire fabric for reinforcing the rubber, according to Claim ~~3~~1.
